Trello: 7/10

- -3.5, not enough stories for requirements

UML & Style: 20/20

- You had only one style error but considering how impressive it is that you only had one, I won't dock you the marks for it

Android Interfaces: 20/20

Upgrades: 18/20

- -2, account forces you to check out saved cart, can't make any additions to it

UML Updates: 3/5

- -1, no separation between database helpers and classes that call them (dependency inversion)
- -1, no user factory being used

Total: 68/75 (90.67%)
