

## **GROUP\_0817**

### **Trello: 7/10**

- -3.5, not enough stories for requirements

### **UML & Style: 20/20**

- You had only one style error but considering how impressive it is that you only had one, I won't dock you the marks for it

### **Android Interfaces: 20/20**

### **Upgrades: 18/20**

- -2, account forces you to check out saved cart, can't make any additions to it

### **UML Updates: 4/5**

- -1, no separation between database helpers and classes that call them (dependency inversion)

**Total: 69/75 (92%)**
